

RYAN MYLES MOSEMAN

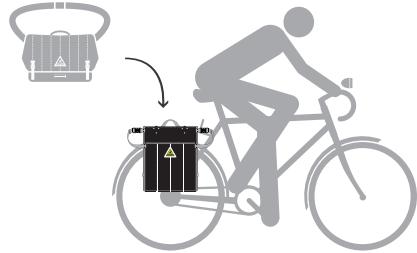

maker of many things

PERSONAL STATEMENT

“Design is making things with choice and for an envisioned purpose, questioning why a traditional method was chosen, and embarking on a new path with the insight gained through experience. Design as life.”

DESIGN INTERNSHIP

FreeRider Bicycle Pannier

“Freerider is a carryall for bicycle commuters; it stows any bag, box, or backpack.”

I designed a pannier that was successfully crowd-funded, it's now included in Green Guru's product line. The project spanned 15 months. As a result I gained experience in product design, marketing, development, and manufacturing.

SKILLSET

Primary

Softgoods

Layout

Drawings

Secondary

Fabrication

3D CAD

Modeling
